

DIDSBURY PIONEER

VOL. XXVII, No. 34

DIDSBURY, ALBERTA, THURSDAY, AUGUST 21, 1930

\$2.00 Year. 5 cents a copy

Harvest Is Now In Full Swing.

This week sees harvest operations on in real earnest and for the next few weeks, farmers will be working at top speed. About forty per cent of the cutting has been done.

Crops to the west of town where there have been many good showers during the growing season are generally good and some excellent yields are looked for.

East of town, the crops will not be quite so good but many of the farmers say that the yield will be better than expected earlier in the season. Although the straw in many fields is short, the heads are well filled and the grain is of good quality.

During the last few weeks there has been some hail damage but this district has been more fortunate in this respect than many others in the Province.

On Sunday night, a hailstorm struck Elkton and Cremona districts and did considerable damage.

Hon. Mrs. Parlyb Also Goes To League Meet

Canada will be represented at the next meeting of the assembly of the League of Nations by Sir Robert Borden, Senator Thomas Chapais and Hon. Mrs. Parlyb.

The assembly meets in Geneva early in September and before that, there will be a meeting of the council of the league. Canada's representative on the council will be Sir Robert Borden as leader of the Canadian delegation.

Hon. Mrs. Mary Irene Parlyb is minister without portfolio in the Alberta Provincial government. She represents Lacombe in the legislature and was provincial president

Women's Institute Holds Conference

The Annual Women's Institute Constituency Conference of Didsbury West was held in Knox United Church on Monday, August 18th. This district comprises ten institutes, Airdrie, Crossfield, Carstairs, Cremona, Seibertville, Lone Pine, Mountain View, Westcott, Rugby, and St. Eloi.

The conference opened at 10-30 a.m. with the constituency convenor, Mrs. J. F. Boyce of Carstairs in the chair. At twelve o'clock, dinner was served in the basement by the Ladies Aid, after which the delegates were entertained at the Didsbury General Hospital.

The afternoon session opened at 1-30 p.m. and a very busy afternoon was spent on reports, discussions and addresses.

Mrs. J. F. Ferguson of Trochu, director of No. 3 district, was a distinguished visitor and gave an inspiring address. Other speakers were: Mrs. Grevett of Calgary and Mr. Davies of the Town and Rural Planning Dept., Edmonton.

Miss Joyce Levagood, in a Japanese costume, gave a solo, Master Arthur Boorman, a violin solo and Mrs. Huget, a recitation.

With the election of Mrs. Hosegood as Constituency Convenor and Mrs. Rae as Assistant Convenor for 1930-31, a very successful conference was brought to a close.

After the serving of afternoon tea by the Didsbury ladies, the various delegates departed, feeling more than ever that the Women's Institutes were infinitely worth while.

"Pioneer" Want Ads. bring results

of the United Farm Women of Alberta for four years. For two years she was a member of the board of governors of Alberta University. In the last two provincial elections she has been returned as candidate of the United Farmers of Alberta.

LOCAL & GENERAL

Mr. and Mrs. Stan Richards of Calgary, spent Sunday with Mr. and Mrs. H. Roberts.

A dance will be held at Community Hall on Friday, August 22nd. Bellamy's Orchestra.

Mr. Jake Lang of High River, a Didsbury "old-timer," called on a number of friends on Monday.

Mr. and Mrs. E. G. Shaw of Winnipeg, visited with Mr. H. O. Tonjum over the week-end.

Mr. and Mrs. H. Hawkes and family are on a motor tour to the Waterton Lakes and Banff Park.

Mrs. Dr. Clarke and family returned on Monday from Edmonton, where they spent their vacation.

Mr. Allen Berscht of Salmon Arm, B.C., was visiting his relatives here this week.

Mr. and Mrs. Cecil Studer of Lethbridge are spending a two weeks vacation here.

Mrs. Geo. Liesemer and daughters and Mrs. H. C. Liesemer returned from their vacation at Sylvan Lake on Sunday.

Mr. and Mrs. W. A. Austin who spent the last two weeks visiting at Lethbridge and Sylvan Lake, returned home on Sunday.

Mr. and Mrs. Harold Clemens and family of Calgary are spending a two weeks holiday visiting friends and relatives in this district.

Raymond Kalbfleisch of Three Hills, visited with his cousins here last week and returned home on Monday.

Mr. Crumm who was formerly a teacher in Didsbury, has been re-engaged as principal of the High School at Pincher Creek.

Mr. and Mrs. W. J. Waldron, Marjorie and Mr. W. R. Hartley spent a few days motoring in the mountains last week.

Mr. H. J. Tuggle of Los Angeles, California, who resided in this district for a number of years, will visit with his sons here for the next two or three months.

Mr. and Mrs. J. Halton, Miss Grace Coates and Mr. E. Ford motored to Sylvan Lake on Saturday evening and spent the week-end there.

Tommy Johnson, Roland Hawkes and Bert Cressman had good fishing in the Big Red on Sunday and brought in a nice catch. Bert landed a big one measuring 17 inches.

Miss Elva McMow spent the week-end with Mr. and Mrs. T. J. Le Clair in Calgary, who, together with Mr. H. Carter, brought her home on Sunday and visited friends here.

Didsbury High School Maintains Its High Standing This Year

The following is a brief summary of the standing of the pupils of the Didsbury High School in the recent departmental examinations. The total number of units written were 417 and the net of failures 56, giving the school a standing of 87 per cent, which is a highly creditable record. Attention may be drawn to the fact that there are nine marks of 100 per cent, which is outstanding.

First Year High School (Grade IX)	
Berscht, Leonard	56 50 84 83 66 60

Where Quality and Price Meet

When a Laxative Gripes --- BEWARE!

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury. No laxative that causes such discomfort is safe, or necessary. ENO is pleasant, gentle, safe and sure. A daily dash of ENO'S "Fruit Salt" in a glass of water, night or morning, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

ENO'S "FRUIT SALT"

The World's Grain Exhibition

The World's Poultry Congress is now in progress at the Crystal Palace, London, England, including a representative display of birds from Canada and with prominent Canadians identified with the poultry industry in attendance. A year or two ago Canada was honored by being host to the World's Poultry Congress, held in Ottawa, and which proved to be the most successful of these world's congresses held up to that time. Canada received most valuable publicity as a result, while the poultry industry throughout the Dominion was decidedly benefited thereby.

Canada is again to be host to a world's exhibition and conference in 1932, when the World's Grain Exhibition and Conference will be held in the city of Regina, Saskatchewan. It will be the greatest grain exhibition and conference ever held, with over \$200,000 in cash prizes, an unprecedented sum, to be awarded, while grain experts from all over the world will be in attendance to participate in the conference.

Already the response of countries in every hemisphere has surpassed expectations. To date nearly one million copies of the official prize list have been distributed in 84 countries. They have been placed where they will do the most good, and give a maximum of advertising to Canada, and Western Canada in particular, in every corner of the civilized world.

Canada as a country dependent on agriculture, and suffering all the growing pains of the young, needs this advertising, and even supposing no person from outside Canada attended the Exhibition and Conference at Regina, in 1932, the world-wide advertising already secured would be an ample return for all monies expended to date.

But the countries of the world will be represented, not only by interesting and instructive exhibits, but by leading agricultural experts. The Government of Canada officially issued invitations to other countries to participate and today, two years before the event, eight countries have accepted. These are Peru, New Zealand, Guatemala, Poland, Czechoslovakia, Yugoslavia, Belgium and the Netherlands. The Governments of other countries, such as the United States, Great Britain, France, the Argentine, Australia, have asked for further and more complete information, and by 1932 it is expected at least 50 countries will have accepted the invitation and be present.

The management of the World's Grain Exhibition and Conference has taken advantage of the World's Poultry Congress, in London, England, this month to further its campaign for world-wide participation at Regina in 1932, and has sent an exhibit to London, and this week are entertaining, in London, the official delegates of 56 countries. At this luncheon the managing director of the World's Grain Exhibition will address these delegates and outline to them why they should participate at Regina. Afterwards he will visit the ministries of agriculture, of the countries of Europe, to drive that message home.

Exhibits of the World's Grain Exhibition are also being prepared for the Canadian National Exhibition, and the Royal Winter Fair, at Toronto, and the International Grain Show at Chicago.

This is what is being done to bring the world to Western Canada in 1932. But, and this is important, Western Canada should put forth every effort to retain for this country the world's championship wheat trophy. Other countries are going to try and capture it; we are asking, even urging them, to make the attempt. Western Canada must therefore look to its laurels. The wheat farmers of Western Canada,—the best in the world,—must be alert and put forth their best efforts, individually and collectively, to retain for this Dominion the proud title of the World's Wheat King.

Now is the time to prepare for the exhibition. It cannot be put off until 1932. It must be done in 1930 and 1931.

The Oil Of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Illuminated cap badges are used by the messenger boys of a wireless telegraph company in London.

Minard's Liniment for Lumbago and Neuralgia.

A Tall Story

A borrower recently returned to a Canadian library a book he had taken out fifty years ago. They wrote 'em long in the Victorian era.—Kansas City Star.

Rheumatism GONE

"After years of rheumatism, now in perfect health," says Mr. A. Ducharme. Thousands write rheumatic pains, neuralgia, vanish like magic with "Fruit-a-tives". Constipation, indigestion and overnight. Nerves quiet. Get "Fruit-a-tives" from druggist today.

THANKS FRUIT-A-TIVES

W. N. U. 1848

Baker Lake

According to the records of the Geographic Board of Canada, Baker Lake was so called in 1762 by Capt. Christopher of the ship "Churchill," who discovered the lake on ascending Chesterfield inlet from Hudson Bay in that year.

Have Minard's Liniment on your shelf.

World Depression In Wool Prices

New Zealand, like Australia, has been hit a severe blow by the world depression in wool prices, it was revealed recently. The gross receipt of the New Zealand wool sales this year were almost \$35,000,000 below last year's yield. Wool forms by far the largest part of New Zealand's exports, the value of the wool export in 1923 being more than \$80,000,000.

A beam of light travels so fast that it could make a round trip from New York to San Francisco in approximately a seventy-fifth of a second.

China plans to spend \$4,000,000 in improving its government telegraph lines.

Archbishop Opposed To Death Penalty

Says It Lowers Conception Of Sanctity Of Life

The Most Rev. William Temple, Archbishop of York, is one of the few witnesses who has come so far before the Royal Commission on punishments to favor the abolition of the death penalty.

"I dissent from the view that punishment should be regarded as regulated vengeance," the Archbishop stated. "From a Christian viewpoint, vengeance is entirely illegitimate. The infliction of death or outlawry would, perhaps, be justifiable in the case of a man who was wholly evil but no person was ever that."

The main argument advanced by the archbishop from a sociological viewpoint was that the behaviour of a community as a whole was so largely imitative that the reaction to the taking of life by the state tended to a lower general conception of the sanctity of human life.

Summer Complaints Kill Little Ones

At the first sign of illness during the hot weather give the little one Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or by mail at 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Usual Order Reversed

Cleveland Children Look On While Parents Graduate

The usual order of school commencements was reversed at Cleveland when an audience of children sat in the auditorium of John Hay High School and applauded their parents as they marched to the platform to receive high school diplomas. The occasion was the annual commencement of the Cleveland Extension High School.

Ages of the graduates ranged from 17 to well past middle age. In the class was a golf professional, an assistant sales manager, a chief auditor, a credit manager, an assistant treasurer and a field manager for a large oil company.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose leaf in texture. Recommended also to soften and whiten the hands. Truly a peerless toilet requisite for every woman.

Freshman: "What would you do if the girl you were calling on raved and shrieked that she never wanted to see you again?"

His Buddy: "I'd jump to my feet and leave."

"And let her fall to the floor?"

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick sure remedy. Also recommended for burns, sprains, sores and inflammation.

Wax figures for store windows in London are being made to represent Helen Wills, Princess Elizabeth, Prime Minister MacDonald and other well-known people.

An exceptional coconut tree may produce as many as 500 nuts in a year.

Thinning Hair

Stimulate your scalp and prevent dandruff by massaging with Minard's. It gives hair new lustre.

May Purchase Canadian Land

Another English Peer Interested In Farming In Dominion

The possibilities of southern Saskatchewan for ranching on a large scale were investigated recently by Lord Middleton, Yorkshire landowner, who is touring Canada with a view to purchasing land in this country. Lord Middleton specializes in breeding beef cattle on his 3,000-acre farm in the north of England. He recently made the decision to dispose of the whole of his estates, comprising some thousands of acres, driven to this step by the excessive burden of taxation to which every British landowner has been subjected since the war. It is his plan to take up land in Canada. He was an interested visitor at the Brandon Summer Fair, and in all the departments he visited, those in charge were rather amazed at the knowledge he had of farm affairs and of horticulture. He brought over to Ontario some fifty Yorkshire lads, who will be placed on Ontario farms.

Father Of Many Inventions

Sir Charles Wheatstone Gave Many Scientific Ideas To World

The concertina celebrated its centenary last year. It was invented and Charles—Wheatstone, in 1829. He must have been a wonderful man, for his inventions seem to have been legion. Sir Charles invented, for example, the stereoscope, by which the appearance of solidity is obtained through the mental combination of two pictures, and the polar clock, which made it possible to tell the time by the light from the sky although the sun might be invisible. It was he who made the electric telegraph available for the public transmission of messages. And in between his scientific studies he sandwiched the invention of our little musical friend the concertina.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Nanking Is Ambitious

Has Extensive Plan To Reconstruct City In Big Way

Nanking, China, proposes to reconstruct the city in a big way. Already 77 proposals of improvements have been adopted. Among them are the construction of a river port, installation of a waterworks system, opening of a metropolitan park and a Grand Metropolitan Museum, provision for three clinics, promotion of industry and the opening of factories, development of afforestation, and laying out of a beautiful residential district.

1 Minute Ends Itch of ECZEMA

"ECZEMA-SALVA" AMAZES DOCTORS
"Baby had terrible eczema. 'Eczema-Salva' ended itching in 1 minute. Disease soon left."—Mrs. J. Laurence. Stops itch, burn, pain in 1 minute. Eczema goes for good in few days. Skin becomes clear, smooth. All Druggists.

To Cope With Cancer

War-Time Mustard Gas Now Used For This Purpose

Use of war-time mustard gas in combating cancer is described in the annual report of the grand council of the British Empire cancer campaign.

The report said, "Mustard gas seems to be the first true anti-carcinogenic agent ever discovered." Action of the gases was explained as being localized to the particular area under treatment and its cure to be strictly limited in time. But none the less on that account a remarkable cure."

Game In Canada

The physical characteristics of Canada—its innumerable lakes, extensive forests, and great open prairies—combine with its natural geographical situation to constitute a distinct faunal region within which is to be found almost every species of game native to the North American continent.

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Canada Has Maintained Lead In Silver Fox Ranching Industry, Which Is Steadily Growing

Canada was the first to develop the breeding of silver foxes in captivity and she has so maintained her position in this respect that she is regarded as a world-leader by all other countries, whose representatives periodically visit the Dominion in search of knowledge and advice in the conduct of similar undertakings. While silver fox ranching has been exploited here and there by individuals who have been stressing its financial possibilities, yet the industry as a whole has developed along sound and economic lines, due in the first place to the foresight of the pioneers and to the valid and conservative methods of the fox breeders of Prince Edward Island who nursed the silver fox industry through its infancy.

The Canadian National Silver Fox Breeders' Association is the largest breed society in the Dominion and registers annually a larger number of pedigreed animals than is to be found in any other species of live stock. The 70,883 silver fox pups born in 1929, and registered by this association, are descended from less than a score of silver foxes taken from the wild by the pioneer breeders. The remarkable growth of the silver fox industry is indicated by the figures of the last four years, taken from Canadian Live Stock records, of silver fox pups registered by the above association: 1926, 32,355; 1927, 39,767; 1928, 51,624; 1929, 70,883.

While Prince Edward Island is still the cradle and the home of the industry, silver fox ranching is being firmly established in practically every province of the Dominion, and is operating on a very large scale, more particularly in the province of Quebec. Silver fox ranching has also become established in a great number of European countries, and heavy shipments of live foxes are made annually from Canada, 2,558 having been exported from Prince Edward Island alone in 1929.

While there has been a larger sale of live silver foxes as breeding stock during the last few years than ever before, yet these animals represent only about 25 per cent. of the silver foxes produced. The main function of silver fox ranching is the production of pelts. In fact, large number of the ranches are no longer interested in the sale of live foxes. As a consequence there has been a rapid increase in the number of silver fox pelts coming into the market, but, as the number has increased, a wider and more general interest has been shown in silver fox furs by the fur buyers and by the fur trade as a whole. This has resulted, generally speaking, in a steady increase in the prices obtained for silver fox furs. Of course, as was to be expected, the financial stringency of last autumn had a marked effect on the prices of all pelts at the December and January fur sales, but silver fox furs were less affected than any other class.

During the last two decades of the 19th century before foxes were raised in captivity, it has been estimated that between 2,000 and 3,000 silver fox pelts were placed upon the market annually. For the past two years over 100,000 silver fox pelts have been absorbed each year by the fur trade, and, as the number of captured wild animals has not increased, it is estimated that wild pelts comprise only about 2,000 of this number. This estimate is confirmed by the fact that at the different fur auctions pelts of wild foxes formed less than two per cent. of the total offerings.

Elsie: "Tell me, mummy, what do you really look like?"—Sondagnisse-Strix, Stockholm.

Regulate Imports Of Grain

Matter Will Come Up At Imperial Conference In London

The highly important matters of a board to control imports and schemes for bulk purchase of agricultural commodities will not be overlooked when the Imperial Conference assembles in London, England in the coming autumn, R. Hon. J. H. Thomas, Secretary for the Dominions, assured a questioner in the British House of Commons.

These questions, which have been under discussion in British politics for some time, have not been placed on the agenda. Mr. Thomas explained the agenda for the conference was a matter on which agreement must be reached between the governments taking part. He gave assurance the questions would not be dismissed without consideration.

The questioner probably had in mind the suggestions that a board should be set up to regulate imports of grain.

(By Annebelle Worthington)

Enhance your charm by wearing flattering jacket costumes. It is a season of jackets!

The one sketched is in green crepe silk print in combination with egg-shell.

The skirt shows slenderizing line in pointed hip yoke treatment. The jacket is in popular hip length.

Style No. 3436 comes in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38 and 40 inches bust.

It is stunning with the dress made of chiffon print in hyacinth blue colouring, with the jacket of flat silk crepe in matching shade.

Yellow and white sportswear linen with plain yellow sheer linen for simulated tuck-in bodice is very chic.

Pastel flat silk crepe, shantung and cotton or silk shirting swaggar.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Grain By Bay Route

Seventy-One Years Ago Grain Was Imported From Britain Into Hudson Bay

Workers are toiling today on the steel and concrete framework of the grain elevator at Churchill, to aid in the movement of the 1931 wheat crop over the Hudson Bay route. But 71 years ago the Bay route was used for the shipment of wheat—at that time to the prairies which now supply consumers in all parts of the world.

In 1859 some eleven thousand bushels of wheat and seven thousand bushels of flour were imported for prairie settlers. The bulk of these supplies came to Red River (now Winnipeg), in the round-bottomed sailing vessels which braved the dangers of the northern route. Seventeen years later Manitoba shipped out its first wheat down the river to Duluth, Minnesota, and thence by rail to Toronto.

In the interim the western prairies have swelled their grain producing expanses until half-billion bushel crops have become an actuality. And advancing trade is preparing to move out over a bay route used by grandfathers of folk who toil today.

Soil Scientists Are

Meeting In Russia

As Tribute To Work Which Has Been Carried On There

People who are still thinking of Soviet Russia in terms of whiskers and bombs may be called upon to change their views within the next few years and a recent announcement seems to point rather definitely in this direction. This summer the annual convention of the International Society of Soil Scientists will be held in Russia as a tribute to the soil work which has been carried on there in recent years.

The Russian school of soil scientists has attained a position as a result of its work, which is now considered second to none in the world and the holding of this convention in Russia speaks volumes for it is of American origin and our neighbors to the south are not noted for giving credit where credit is not due if it is outside of their own borders.

New Grievance Against Autos

Farmers of Scotland have found a new grievance against the automobile. Entries to the fall fairs this year are to be few because, they say, the increasing number of cars make it unsafe to drive their choice livestock along the highways leading to the events. Some sheep owners plan to buy machines to transport their exhibits.

Part of Plato's philosophy was to the effect that the mind was always superior to the body and should at all times control it.

Pale Western Cutworm One Of Worst Pests With Which Farmers Have To Contend

The pale western cutworm is one of the worst insect pests with which the farmers of Alberta and Saskatchewan have to contend. Its presence in a field in the spring depends entirely on the condition of that field during August and early September of the previous season. For this reason, this warning is issued so that farmers in these two provinces may prepare their fields this summer to avoid trouble next spring.

The weather conditions during the early season of 1930 have been such as to practically ensure an enormous increase of the pale western cutworm over a large area in both Alberta and Saskatchewan. In fact, it appears now as though these provinces would have the most widespread and devastating outbreak of this insect that has ever occurred.

The outbreak will be most severe in Alberta from Edmonton south to the Lethbridge-Medicine Hat line of the Canadian Pacific Railway, and east of the McLeod-Edmonton line. There will undoubtedly be some increase south of Lethbridge and Medicine Hat and farmers in that area will do well to handle their fields accordingly.

In Saskatchewan the outbreak will probably be quite general from Saskatoon-south to the border. The most severe damage will probably occur in a 100 mile radius of Regina. The isolated local outbreaks which occurred in 1930 over the rest of Saskatchewan west of a north and south line through Indian Head and Abernethy will probably increase in intensity and spread in all directions so as to make a general outbreak with severe conditions scattered through it.

Wherever possible, farmers are urged to keep entirely off their fields from the first of August until the middle of September. Summerfallow should be well worked during July so that all weed growth is destroyed and then left untouched. No stock should be allowed to run on the land and no machinery taken across it.

The adult moths of the pale western cutworm lay their eggs during August and early September. The eggs are always laid in soft, dusty soil and any fields which have the soil surface slightly crusted will be largely avoided by the moths. In most soils a light rain is sufficient to form this protective crust and if the last cultivation is followed by such a rain the crust that is formed should not be broken in any way.

Fields which are in crop that must be harvested during August will have the surface crust destroyed by these operations and the cutworms will be

present there next spring. If the crop is such that it can be left until the middle of September or can be cut and stooked before the first of August nothing should be allowed to disturb the soil crust between those dates.

The entire problem during a pale western cutworm outbreak can be simply expressed as follows:

1. Any fields in which the soil surface is crusted and undisturbed from the first of August to the middle of September will be reasonably free of cutworms the following spring.

2. Any fields in which the soil surface crust is broken or disturbed between the first of August and the middle of September, are reasonably sure to be infested with cutworms the following spring. If such fields are seeded the crop will probably be destroyed.

The only hope of growing crops successfully over the outbreak area in 1931 if the foregoing recommendations are not followed depends entirely on the spring rainfall. Wet season during next May and June with frequent heavy rains may reduce the amount of damage. When the soil is wet the pale western cutworm does not feed as heavily or destroy as many plants as it does when the soil is dry.

More detailed information can be secured by writing to the Dominion entomological laboratory at Lethbridge, Alberta; Saskatoon, Saskatchewan; Indian Head, Saskatchewan, or Treesbank, Manitoba.

Study Sheep Industry

Will Make Economic Survey Of Sheep Raising In The West

Dr. J. H. Grisdale has announced an economic survey of the sheep raising industry in Saskatchewan, Alberta and British Columbia this summer. The Agricultural Economics Branch and the Experimental Farms of the Dominion Department of Agriculture, will co-operate in carrying out the survey. This survey, which will include a complete study of conditions in the sheep ranching industry, marks the beginning of a program of research work in agricultural economics on behalf of the Livestock industry. It is anticipated that between 150 and 200 sheep ranches will be visited in the three provinces. Departmental experts will be assisted by representatives of the respective Provincial governments and of Livestock Associations in carrying out work of the survey.

Favourite Canadian Apples

McIntosh, Spy, Gravenstein, Delicious and Baldwins Are the Favourites

Canada has a wide range of apple varieties and the question as to which of these is the most popular provides a good deal of interest. In a survey conducted by the Fruit Branch of the Dominion Department of Agriculture, the McIntosh was shown to have a marked preference in Canada generally. Next came the Spy, then the Gravenstein, then Delicious, and then the Baldwin.

Mystery Bus Trips a Novelty

Dublin, Irish Free State, has just introduced auto-bus mystery trips as a novelty. Passengers are given a fifty-mile drive every evening during the summer for 60 cents. There is a stop of one hour at popular resorts. The route is not announced beforehand in order to arouse interest.

"They say: Time is money! If I had as much money as I have time, I'd be a millionaire."—Hummel, Hamburg.

Empire Games at Hamilton

Hamilton, Ontario, will be the centre next month of the British Empire Games to which athletes from all the Dominions and the Mother Country will flock. E. W. Beatty, chairman and president, Canadian Pacific Railway, is chairman of the national committee of the A.A.U. of Canada for the Games, and promises of support have been received by the committee from Australia, New Zealand, Africa, British Crown Colonies, the Irish Free State, Northern Ireland, while a strong and representative British committee has been formed to ensure full British participation at this notable sports gathering of the British peoples. Canada will, of course, be very fully represented, practically every province sending its outstanding athletes. The Games are scheduled to be held August 16-23.

J. E. GOODER, Editor & Manager

PARLIAMENT WILL BE CONVENED EARLY IN OCTOBER NEXT

Canada's next parliament will be convened under the premiership of Hon. R. B. Bennett about October 1 to begin the implementing of Mr. Bennett's pledges to curb unemployment and to divert a material proportion of importations of manufactured goods from foreign markets to Canadian factories.

As a preliminary step to take the slack out of unemployment it is probable that, in co-operation with the provinces, a considerable program of public works will be authorized. In fact, as soon as Mr. Bennett's Government is organized and accepts office, it is expected announcement will be made that money will be appropriated by Governor-General's warrant to assist the provinces and municipalities, as was done in 1921 and 1922. At that time the Government provided close to two million dollars to aid the unemployed.

Even an extensive program of public works, however, can only be a temporary palliative—a sort of a lifting of the country by its own bootstraps. The permanent remedy espoused by Mr. Bennett is the up-building of industry within the country through the manufacture of our raw materials for the world in Canada and through the manufacture here of hundreds of millions of dollars worth of goods now imported.

Where manufactured goods cannot be economically produced in Canada, it is Mr. Bennett's creed that we should buy them from nations which are ready to grant Canada trade advantages for our wheat and other produce.

All this will involve a very material realignment of tariffs. As a first step the countervailing duties enacted last session will be repealed. The British preference will be subject to revision. Items under that heading which affect Canadian industry—like woollens—will be altered, while others will be made more effective through a heightening of the general tariff to a degree that will assure the transfer of our purchases to British sources.

These latter changes, of course, are linked with Mr. Bennett's insistence that preferences must be mutually advantageous. What concessions he will be able to secure from Britain for Canadian foodstuffs is a matter of conjecture. For a century Britons have resolutely opposed any taxation of foodstuffs. In the last year there have been evidences of a change in that attitude. How far it can be carried will perhaps depend on Mr. Bennett's success in convincing the people of Britain that the industrial benefits he offers them will more than compensate for any increase in the cost of living.

LOCAL & GENERAL

C. E. Reiber made a business trip to Calgary on Monday.

Lee Sanderman is driving around in a new Chev. sedan.

Ken Robinson spent the week-end visiting his parents in Edmonton.

Miss Margaret Ranton was a Sylvan Lake visitor on Sunday.

Mrs. Alex McGinnis of Trochu, was visiting friends in Didsbury on Saturday.

Mr. and Mrs. J. Russell and daughter Jean motored to Cochrane on Sunday.

Miss M. Saugstead left on Sunday for a two weeks vacation. She will visit at Edmonton and High Prairie.

Mr. and Mrs. Ted Brown and family returned on Monday morning from their two weeks vacation.

Miss Lucille Smith is back again at the switchboard, after spending a two weeks vacation at Sylvan Lake and Banff.

Mrs. A. M. Watson who was in the Calgary Hospital last week, has returned home and is very much improved in health.

Mrs. Grevett of Calgary, who was attending the W.I. conference on Monday, was entertained by Mrs. H. M. Reiber.

Mr. and Mrs. Ben Robinson of High Prairie, were visitors in Didsbury last week, returning home on Saturday.

Mr. Bert Fisher drove to Edmonton on Sunday and returned with Mrs. Fisher and family who have been visiting in the capital city.

Mrs. C. E. Allen of Cozad, Nebr., was guest-of-honor at a Kensington Wednesday afternoon given by her sister, Mrs. R. C. Oldham. Fifteen ladies were present.

Mrs. R. C. Oldham, Mrs. C. E. Allen and G. R. Oldham returned the first of the week from Jarvis, where they spent several days as guests of Mrs. Oldham's daughter, Mrs. E. P. Nelson. They report wonderful crops in the territory visited.

The following Didsbury residents were seen at Sylvan Lake on Sunday: Mr. and Mrs. Bruce Parker, Mr. and Mrs. F. W. Leeson, Mr. and Mrs. J. W. Phillipson and family, Mr. and Mrs. W. H. B. Sharpe, Mr. and Mrs. A. G. Studer and Mr. and Mrs. W. G. Liesemer, Mr. and Mrs. Thurlow, Mr. and Mrs. C. Bellamy and Alice and Mollie Pearson.

Fall Wheat

One of the things which have attracted the attention of visitors to the experimental grounds at the Olds School of Agriculture, this summer, are the plots of fall wheat. Some of them show an excellent stand and this especially is true of the Kharkov strains which originate from McDonald, but have been grown here for a number of years.

Under favorable conditions, these strains will not outyield the ordinary grown spring wheats, but in a dry season, as last year and this, they will outyield the spring wheat by about 50 per cent. Another advantage is that it helps diversify labor. Seeding may be done on days in the fall when it is too wet for harvesting operations and generally speaking, they ripen a little ahead of spring-sown wheat, although in a wet year they may be later.

A limited amount of seed is available for free distribution. By applying to the O.S.A. Experimental Union, a 4 lb. sample may be obtained.

The seed should be sown on clean summerfallow about the middle of September, as an early seeding has a tendency to produce a heavy growth in the fall. Seeding should be done at the rate of not more than one bushel per acre and if possible, choose a place where snow will lie in the winter, or else leave the ground as rough as possible and preferably on corrugated fields. Seeding in furrows 3 to 4 inches deep and 9 to 12 inches apart has proven to give excellent results, as it assures a covering of snow and checks any possible soil drifting in fall or spring.

Death Camas Kills Local Cattle

Several cattle belonging to Mr. W. M. McCulloch, east of town, were recently taken sick by poisoning and one of the animals died. Calling on Mr. Cressfield, weed inspector for Rosebud Municipality, who investigated, it was found that the cattle had been poisoned from eating the poisonous weed, Death Camas.

Mr. Cressfield informs us that the death camas is a slender grass-like plant, having a cluster of from five to seven pale green grass-like leaves. In the centre grows a flower stem from five to twenty inches high, with green-yellow flowers. The root is an onion-like bulb. The death camas is to be found on the open prairie, on open land on the sides of hills and in coulees.

The wild onion is sometimes mistaken for the death camas. It has an onion-like smell which is absent in the camas.

Probably, the first symptoms observed in the cattle or sheep affected, will be a stiffening of the legs and difficulty in walking. Frothing at the mouth and rapid breathing are other symptoms.

The remedy for the poisoning is the administration of permanganate of potash and aluminum sulphate. Mr. Cressfield has left a prescription with the druggist.

WHEAT FUTURE

Outlook Not Brilliant, But Not as Fluctuating as Past Year

It is cheering news to a wheat country to learn that the carry-over of wheat in Canada will be less by 10,000,000 bushels than at the end of the previous crop year. Since early in May there has been a steady movement of grain down the Lakes, the railway yards at the head of the Lakes and the elevators at the other end are emptying.

The Wheat Pool heads claim that prairie governments will sustain no loss through guarantee of the Pools. The guarantee was in respect to last year's crop and the crop year ended on July 15, with the governments' guarantee uncalled.

It is expected that this year's crop will be more than that of last year. So it is doubtful if any very greatly improved prices will be reached. But with U.S. and Argentine having lessened production, there is every sign that Canadian wheat will be less at the mercy of fluctuations. If it can be sold quickly, it will relieve a certain amount of tension.

Prospects are that Canada this year will advance into second place among the gold producing countries of the world. South Africa holds first place and the United States second, but present progress in the mines of Canada make it appear likely that the 1929 gold production of \$40,000,000 will this year be increased by fifty per cent.

GET PERMISSION TO CONVEY MAILS

Permission has been granted the Commercial Air-Ways Limited of Edmonton to convey such mail as is offered by the public for carriage by air from Edmonton to Fort McMurray, Alberta, provided the senders assume all risk, according to a statement issued by the deputy postmaster general.

The requirements for sending mail in this way are: "By air—Edmonton to Fort McMurray" to be prominently written on the address side of the envelope, the usual Canadian postage to be affixed to the address side; a special aerial sticker sold by the Company or its agents, representing a charge of ten cents per ounce, to be placed on the reverse side in payment of the special charge for transmission by aerial service, which has been fixed by those making the flight.

RED CROSS

Donations of clothing especially for little children, will be gratefully received by the undersigned

W A AUSTIN,
Secretary Red Cross Society

A quantity of cocoons will be brought to Montreal in their natural state for the purpose of demonstrating the process of weaving silk and converting it into the finished product at the National Produced in Canada Exhibition to be held in that city November 3-8 next

Canadian entries in the overseas section of the British National Egg-Laying contest are holding their own with the world's best egg producers. Reports received by F. C. Elford, Dominion Husbandryman, show that Canadian pens hold third and fourth positions in the international contest. First place is held by France and second by Ireland.

Market prospects for fruit growers of Nova Scotia are encouraging because the British Isles must look to Nova Scotia for the bulk of their barrelled apple supply until November 15, as a result of the embargo on barrelled fruit from the United States.

Last year a British artist publicly declared Canadian women to be the most beautiful in the Empire and now another Britisher — this time a newspaper man — claims they are the Empire's greatest travellers. It appears that a check up on railway travel in summer reveals that eighty per cent. are females.

Features of this improved Fordson Agricultural Tractor includes an engine of increased power, developing 30 brake-horse power at 1100 R.M.P.—an increase of 27.5 per cent over the former model; a positive ignition system that insures easy starting, new cooling and lubrication system, larger air washers, fenders—standard equipment, and heavy one-piece front wheels.

Let us demonstrate its fine features for you.

Roger Barrett DEALER

Unique Christening at Banff

was witnessed recently at the Banff Springs Hotel when Hilda Banff Rocky Mountain Goat, 36-hour-old Stony Indian papoose (inset) was christened in the courtyard of the hotel in the presence of around 500 guests and with A. H. Devenish, manager of the hotel, and Mrs. Devenish, acting as Godfather and Godmother. Left to right the group shows: Noah Rocky Mountain Goat, father; Mrs. Devenish, holding papoose; Mrs. Noah Rocky Mountain Goat, mother; and A. H. Devenish.

WORLD HAPPENINGS
BRIEFLY TOLD

The Rockefeller Foundation has decided to give \$450,000 to the University of Sydney, Australia, for medical research.

The Irish Free State, like Great Britain, gave the European union idea cool treatment in a note responding to Foreign Minister Briand's questionnaire.

British Columbia's lumber industry is holding its export markets better than Washington and Oregon, according to H. R. MacMillan, leading exporter.

The Canadian Bank of Commerce shipped \$1,000,000 in gold to Canada, from New York, the first important shipment of the yellow metal across the border since 1927.

Value of building permits issued in 61 Canadian cities during June was \$17,936,478, according to a report issued by the Dominion Bureau of Statistics.

"Pure invention," was how Sir Godfrey Thomas, private secretary to the Prince of Wales, described a story that the Prince plans a United States visit and Canadian "camping holiday" this year.

Seven thousand specimens of poultry from 23 countries, including Canada and the United States, went on exhibit in the Crystal Palace, London, England, for the World's Poultry Show.

To commemorate the action of the 700 Indians who deeded to the British crown all land extending west to York, a cairn will be erected at Carrying Place, Prince Edward County, Ontario. A 25-foot plot at the main corner of the village has been chosen as the most suitable location.

The death occurred of James M. Coleman at his residence, 356 Olivier Avenue, Montreal. Mr. Coleman was a well-known figure in railway circles and was the inventor of the Coleman locking device, which prevents passenger cars from telescoping in a railway collision. He was in his 70th year.

Anxious To Capture
Market In CanadaAustralia Makes First Shipment Of
Oranges For Distribution

The first shipment of Australian oranges to enter Vancouver, 5,000 cases from Sydney, N.S.W., was unloaded recently for distribution at various points throughout the Dominion.

To capture the Canadian market for Australian orange growers is the aim of the wholesale fruit distributors organization of Sydney, which two months ago sent W. H. Pierce here to pave the way for the drive.

Claiming that the Australian fruit surpasses the best from the United States, the fruit growers of New South Wales believe that their product will quickly win a large share of the market that the United States producers now enjoy.

On Arbitration Board

Appointment has been announced of the Rt. Hon. Mr. Justice Duff, of the Supreme Court of Canada, to act as Canadian representative on the arbitration board in connection with the "I'm Alone" proceedings. Mr. Justice Duff succeeds to the position made vacant by the death of the late Eugene Lafleur, K.C.

Scotsman: "How much to press a pair of trousers?"

Agent: "One shilling."

Scotsman: "Then press one leg for six-pence—I am having my photograph taken side view."

"Have you heard of the new medicine that's put in coffee and takes away all liking for whisky?"
"Heavens! I'll never dare drink coffee again."—Karikaturen, Oslo.

When Aviators Trespass

Judge Rules People Own Air Five
Hundred Feet Up

Aviators must fly at least 500 feet high to avoid trespassing on property over which they pass, Federal Judge George P. Hahn, of Cleveland, Ohio, ruled in a precedent setting decision.

The decision was on a bill of complaint brought a year ago by two suburban property holders against the Curtiss Airport Corporation, the Ohio Air Terminals Company and the Curtiss Flying Service.

The complaint cited the ancient Roman legal principle, "Whosoever controls land controls it from the centre of the earth to the zenith," and sought an order forbidding planes to pass over the property.

Judge Hahn ruled that the "effective possession" of such property extends only 500 feet up.

Banded Bird Law

Co-Operation With Proper Authorities
Is Required

It is important that any person who finds a banded bird report the fact to the National Parks of Canada Branch, Department of the Interior, Ottawa, giving the species of the bird, band number, date and locality of occurrence, and information as to whether the bird was found dead, was killed, or was released alive still wearing its band. Persons reporting banded birds will be informed promptly respecting the place and time of banding.

Winnipeg Newspaper Union

(By Annebelle Worthington).

3360

The chic femininity and girlish prettiness of this yellow and green printed rayon crepe will instantly appeal to the sophisticated miss of 8, 10, 12 and 14 years.

The flaring skirt shows soft gathering at front, and slight dipping at either side. A crushed girdle marks the normal waistline and ties in youthful bow at side.

The simple bodice is sleeveless. The capelet collar of plain yellow crepe is most unusual, opened at front displaying round neckline. An applied band of the printed crepe provides smart trim.

Style No. 3360 is very effective for parties made of pale blue georgette crepe with collar finished with picot edge.

Printed batiste, dimity, voile, tub silks and printed lawn make up smartly.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

PRINCE AND PEASANT

Signorina Maria Rizzati, Roman laundry girl, who has just married Prince Danioni, member of one of the oldest and wealthiest Italian families. The Prince called at the laundry to commend them upon the ironing of his shirts when he met his future bride.

Novel Attempt To
Escape From PrisonRobber Serving Sentence In Sing
Sing Sewed Up In Mattress

A novel method of attempting escape from Sing Sing prison was uncovered when guards found Jack Levy within a mattress made in the prison factory. Levy, small and middle-aged robber, almost got away with it. He would now be on his way to freedom but for the curiosity of Victor Brown, keeper-chauffeur, who thought a pile of mattresses on his truck looked suspiciously lopsided although it had been twice inspected by other guards.

Brown summoned Principal Keeper Sheehy and a search was instituted. Sheehy ripped open one misshapen mattress and discovered Levy. Levy had a razor with which to cut his way out, and a hammer. The robber will be sent to Clinton prison, Dannemore, N.Y. His attempted escape will put back his earliest possible date of release to 1952. Levy was sewed into the mattress from the outside. His accomplice has not been found.

Indians Celebrate

Celebrate Third Anniversary Of Right
To Cross International Boundary
Without Interference

The red man, once proud ruler of the Niagara frontier, came back into his own for a brief period on July 19.

More than 500 Indians from the United States and Canada, members of the Six Nations Defense League, celebrated the third anniversary of their successful fight for the right to cross the American-Canadian border without regard for immigration "red tape."

Many of the Indians were in full regalia, feathers, war paint and all. The parade formed in front of the city hall at Niagara Falls, Ont., and Indians afoot, on horse and in automobiles, accompanied by pale-face officials, marched along the Niagara river bank and across the Falls View bridge to the Niagara Falls Power Company's ball park, where the celebration was staged.

The sacred wampum was a feature. It was closely guarded by Chief Moses Odjick, wampum keeper of the Algonquins, from Maniwaki, Quebec, and his aides. According to the Indians, the wampum is thousands of years old. To the white man, the wampum is nothing more than a few strands of bead work with Indian figures worked upon it. To the red man, it is the story of the Great Spirit guarding His children. Indian dances had a prominent part in the celebration.

Tom Longboat, one time Canadian marathon champion, was at the picnic and exhibited his trophies. Silver Smith, herb doctor from Grand River, was there, too, and told of his reputed cures. An Indian canoe builder was on the job and fashioned a birch bark canoe.

Testing Packing Cases

New Machine Has Old-Time Baggage
Smasher Backed Off The Map

A machine, known as a "hazard machine" and installed at the Forest Products Laboratories, of the Department of the Interior, Ottawa, is used for testing the strength of packing cases and other containers. The machine consists of a drum seventeen feet in diameter and eight feet in width, erected in a vertical position and slowly revolved by an electric motor. In the drum is a series of floors, arranged in the form of a hexagon. As the drum revolves, the container being tested drops from floor to floor, metal guides causing it to drop successively on corners, sides, and edges. The condition of the container at the end of the test indicates where it needs strengthening.

Captain Sherlock Has
Newest Air RecordFlew Mail Plane 1,500 Miles In One
Day Making Five Stops

Record achievements in the air are just part of the day's work in the north country. The newest feat, unheralded almost among the brilliant exploits of the sub-Arctic fliers, is that of Captain W. N. Sherlock, Commercial Airways pilot. In less than a day he flew the mail from Fort McMurray, in northern Alberta, to Aklavik, on the topmost rim of Canada—some 1,500 miles—making five delivery stops en route.

Son of Sir Francis and Lady Sherlock, Irton Hall, Cumberland, England, Captain Sherlock is a former member of the Royal Air Force. He has seen war and peace-time service in France, India, Egypt and Mesopotamia. Before joining the Commercial Airline, he was a member of the flying staff of Dominion Explorers.

On the morning of June 26, at 5:45 o'clock, Captain Sherlock took off from Fort McMurray air base, flying a Bellanca Pacemaker. Less than 21 hours later, at 2:25 o'clock the next morning, with the midnight sun casting its twilight glow, he landed the mail at Aklavik, within the Arctic circle. On his way, he made postal deliveries at Fort Resolution, Fort Simpson, Fort Norman, Fort McPherson and Arctic Red River along the rushing Mackenzie River.

Captain Sherlock's flight—just one of the records set up by fearless air-men speeding to and fro across the barrens of the northwest—was the first one-day flight from Alberta to Aklavik.

Wit and Philosophy

Puns are not always properly attributed to their original author—possibly because puns have been condemned as the lowest form of wit. But some are worthy to live. Here is one which sums up whole systems of philosophy, but it was originally aimed at George Berkeley's (1685-1753) ventonations regarding matter and mind:

"What is mind? No matter. What is matter? Never mind."—Christian Science Monitor.

Aged Rider Issues Challenge

Eighty-five-year-old Col. E. R. Gregge-Hopwood, of Middleton, England, has challenged any rider of his age to a steeplechase match for \$5,000 a side. The match would be over fences on a two-mile course. Sir Claude de Crespigny, 81, is eager to accept, but is barred. "I cannot afford to give away four years," says Colonel Hopwood, who has been riding to hounds three or four times a week in season for years.

CHAPTER XXI.—Continued

Long after she had read the letter a second time and put it safely away in prospect of a third perusal, parts of it kept coming back to her, such as: "You ask why I should be inarticulate with you, 'of all people.' I've sometimes wondered about that myself. Ask Grandma. Perhaps out of the wisdom of years she can explain that foolish self-consciousness on my part. . . . And lower down: "Of course I wasn't mad—not even hurt, just a little sore, maybe. . . . I knew that deep down inside you didn't think me a Shylock anyhow—you just didn't understand. . . . So it was the dear old doctor who gave me away? . . . And near the end: "How's your boarder? According to Lizzie Baker he's about to settle down with a lady of my acquaintance 'for better, for worse,' etc.; only in this case it would be a great deal better than he, or any other man deserves. If this happens to be idle gossip, Charmian, please pass the good word along. Yours always, Jim."

"Well," said John Carter, rousing

the girl from her reverie, "was it satisfactory?"

"You mean?" questioned Charmian as they started back.

"I refer to the letter I was good enough to bring you," he replied.

She laughed happily.

"More than satisfactory. It took a load off my contrite mind. You see, John, I said something mean and hateful to Jim Bennett before he went away. I didn't intend to be unjust; but I was, terribly. Now it's straightened out and . . ."

"Gbd's in His heaven?" quoted the doctor as she hesitated.

"You're a marvelously understanding soul," she answered. "That's exactly the way I feel, only I didn't think to express myself through Browning."

He smiled, drew up under a lonely tree and stopped the car.

"Trouble?" asked Charmian, thinking of the engine.

"I hope not!" he replied. Then his face grew serious and he turned to her. "Charmian," he began, "now that you've digested that letter—got your mind cleared on the subject, in a way, I've something to tell you. Wait till this automobile passes, and . . ."

But the approaching automobile didn't pass. It stopped, and Ezra Bascomb's familiar face peered at them from behind the windshield.

"Hi, Doc!" he greeted. "One of Luella Moore's twins is took down with appendicitis. Doctor Howe wants you should hurry right along to the deacon's. He's waitin' fer you there."

"Thanks," shouted John Carter as Ezra, who was evidently in haste, sped on. Then he turned again to the girl beside him, and added ruefully: "Like tide and time, appendicitis waits for no man. It's our confidential conversation that must wait. Do you mind if I drop you at the church? I ought to hurry."

CHAPTER XXII.

Where's the doctor?" questioned Grandma, who was surprised to see the girl arrive on foot.

Charmian explained, while the old lady uttered an ejaculation.

"Dear me! Appendicitis?—and the deacon and Luella have just had words! Lizzie Baker told me the whole story. Maybe this trouble will bring 'em together again, though it's like as not to drive 'em farther apart, seeing as theirs isn't what you'd call a love match. Well, dearie, you got your letter, didn't you? Did Jimmy tell you what his mother's up and done?"

Charmian laughed, tossed the old coat on a chair and kissed her grandmother.

"He told me everything. I was silly to get worked up, Grandma. Of course Jim wasn't angry. He wrote as soon as he got my letter. Here!" Charmian drew the lengthy epistle from her pocket and tossed it into Grandma's lap. "There's nothing in it that you can't see. It's a darling letter."

"You read it out loud, dearie." Grandma smiled noting with thankfulness that the girl looked her sunny self again. "There's no hurry about supper with the doctor off hunting an appendix. I told you all along that Jim wasn't the boy to bear a grudge. You sit with your feet over the register, Charmian, and get warmed up while you read to me."

Charmian was only too glad to obey, and her grandmother was an attentive audience.

"That sounds most as if Jim was talking, doesn't it?" she commented when the letter was finished. "Read again what he says about his mother. She and Sophie always did look as alike as two peas; but that's where the resemblance ends. George K. used to say that Sophie (who was born half an hour ahead of Sarah), took all the selfishness there was, and didn't leave any for her twin! George was always a little hard on Sarah because he felt she ruined James Bennett's life. What was it Jim said about them, dearie?"

Charmian found the place and read: "I feel as if I had two mothers all of a sudden. It's a weird sensation, coming into a room and not being sure whether you're confronting your mother or your aunt? Joking aside, the resemblance is really startling, till you get used to it. And how they love each other! Seeing them together has made me wish I had a twin—some one who'd understand me the way Mother and Aunt Sophie seem to understand each other. As for this ranch business—"

"He didn't say, did he," broke in

Grandma, "whether he's going to run the farm for 'em? Seems if those two women were pretty old to start any such a thing. Sarah Bennett married late in life. She can't be a day under fifty-six, nor Sophie either."

"Well, naturally," laughed Charmian, "considering that they're twins! No, Jim didn't mention that part of it."

"Nor say what they'd do with the Wickfield house," went on Grandma, exasperated at this oversight. "Men are terribly unsatisfactory about details. I remember a parish meeting thirty-odd years ago when there was an awful fight. I was sick with a cold and couldn't go; and will you believe it, when your grandfather came home all he said was that 'there seemed to be a little unpleasantness.' He never so much as mentioned how Edgar Purdie shook his fist in the face o' the parish clerk (it was Emmy Bascomb's father and as meek a little man as ever lived), and went off slamming the door behind him; or how Mrs. Garfield got so excited she had hysterics right in the vestry and had to be carried out. I never heard a word about it till next day when Lizzie Baker run over to borrow a yeast cake. I wonder, childy, if Jim is coming back to Wickfield."

"And leave his mother running a fruit ranch!" gasped Charmian. "If Jim ever does a thing like that, Grandma, I'll look for the end of the world. It's a wonder Mrs. Bennett let him go to San Francisco that week without her. Oh, dear! how can a woman with a nice son like Jim be such a tyrant?"

"I've been thinking that maybe Sophie will see how the land lies, and give Sarah a good talking to," replied Grandma. "Sarah'll take from her what she wouldn't take from anybody else, even James Bennett, and in her own way she loved him, too. Mrs. Merry was in a minute after Lizzie left, Charmian. She said to tell you they'd had a long letter from Madge, and that the baby'd got another tooth. It does seem strange to think of Madge having a baby, doesn't it? It makes you seem like a—well . . ."

"An old maid?" suggested Charmian, rising. "You may as well get used to the idea, Grandma. An old maid schoolma'am who—"

"Shucks!" interrupted Grandma with indignation. "I guess you don't need to be an old maid unless you want to! What are you going to tell Jimmy about that idle gossip he'd heard talk of?"

Charmian laughed, but she flushed also, and answered: "I think I'll forget that question, Grandma. It's none of his business."

"I guess he thinks 'tis," responded Grandma wisely; then with a sudden change of subject: "I wish you'd make milk toast for supper, dearie. Seems as if I'd sort of relish it to-night. And be sure you leave some cocoa on the stove in the double boiler. The doctor'll be home late, and most frozen, night like this. Look here, Charmian," she added as the girl turned toward the kitchen, "I didn't understand what Jim meant by saying he'd appoint you his deputy in the matter of Towser and Mouser."

"That was merely a bit of sentiment," smiled Charmian. "I'll explain about it later, but now I must hurry with our meal. You want a lamp, Grandma? It's almost dark."

"No, childy. I like to sit here this time o' day and see the lights come on in the kitchen windows, and watch folks hurrying home to sup-

READ OF A CASE LIKE HER OWN

Decided to take Lydia E. Pinkham's Vegetable Compound

Moncton, New Brunswick—"Before my last baby was born I was very weak,

have three children to care for and I feel well and strong. I have told two other women about your medicine."—MRS. GUS ARSENAULT, 82 Albert Street, Moncton, New Brunswick.

WHOLE FAMILY HAD DYSENTERY

Dysentery is one of the worst forms of bowel complaint and should be checked at once as its termination often proves fatal.

Mrs. H. F. Stewart, Findlater, Sask., writes:—"Two years ago we were all very bad with attacks of dysentery. My husband got a bottle of Dr. Fowler's Extract of Wild Strawberry and after taking three or four doses we were completely relieved. Since then we have never been without a bottle of it in the house."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

per. Sometimes I can't make out who they are, but I always know they're glad the day's work is done and they're going home. Many's the time I've sat here in the twilight with your grandfather and watched the 'shadows of the evening steal across the sky,' as the vesper hymn says. I'm never lonesome this time o' day as some folks are. I guess it makes me feel the way you felt one night when you were just a mite of a thing and I was putting you to bed. Your mother'd been in the habit of leaving a light turned low in the hall outside your door—sort of to keep you company; but that night she was at a church supper and after you said your prayers I sat down on your little bed and repeated the twenty-third psalm.

"I can see you now, looking up at me so soberly and listening to every word like a grown-up. Well, I kissed you, and gave the bedclothes a last tuck, and said: 'Good-night, childy, I'll leave the light, same as Mother does,' and what do you suppose you answered? You said, just as solemn as anything, 'No, Grandma. The Lord is my shepherd, I shall not want—a light.'"

"Oh, Grandma!" cried the girl, as she visioned the little Charmian of long ago. "You never told me that before."

"Didn't I? Well, I've thought of it enough times, goodness knows. It came into my head the minute you asked if I'd like a lamp. You see, dearie, I'm not afraid of the twilight even though it's a time of memories. . . . The Lord is my shepherd. I shall not want—a light."

(To Be Continued.)

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Canadian Goods In

British Daily Life

Always Something To Remind People Of Dominion's Products

"What the future holds for Canadian products in the United Kingdom can be judged in the light of today," said Douglas S. Cole, B.Sc., Canadian Trade Commissioner, at Bristol, England, in an interview at Toronto. "The modern Englishman can rise in the morning from a Canadian-made bed on to a Canadian carpet, lather himself with a Canadian shaving brush and Canadian shaving cream, shave with a Canadian razor, come down to breakfast and eat Canadian cereals, Canadian bacon, Canadian eggs, and toast made from Canadian flour, all cooked on a Canadian gas or electric range, and kept wholesome in a Canadian refrigerator, the while he reads a newspaper printed on Canadian paper. He can drive in a Canadian car to an office equipped with Canadian furniture, dictate letters on Canadian paper, which he signs with a Canadian fountain pen. He reduces his weight by a Canadian massage roller, plays racquets in Canadian rubber shoes, tries to look graceful on Canadian skates, and drives his doctor to starvation with Canadian apples."

Utilities Show Profit

The City of Regina utilities showed a new surplus, according to the statement of S. B. Nelles, city comptroller, of \$131,674 for the first five months of 1930, after deducting administration charges of \$7,083, while the Electric Light and Power Department showed a surplus revenue of \$139,507, the Water Department, a profit of \$11,391, and the Street Railway, a deficit of \$12,140.

Minard's Liniment removes Warts, relieves Bunions.

Little Helps For This Week

"Master, what shall I do to inherit eternal life?"—Luke x. 25.

I do not ask that Thou wilt bless With gifts of heavenly sort my day. So much as that my hands may dress The borders of my lowly way With constant deeds of good and right, Thereby reflecting heavenly light.

—Alice Cary.

Good deeds will shine as the stars in heaven.—Thomas Chalmers.

Good deeds are very fruitful; out of one good action of ours the Lord produces a thousand, the harvest whereof is perpetual.—Bishop Hall.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Signatures On the Roof

Copper Plates On Stockholm Town Hall Bear Name Of Donor

Ragnar Ostberg, who has just been made a Royal Academician, is probably the most famous architect in Europe. His fame rests largely on the wonderful town hall which he designed for his native Stockholm, and which has been inspected by visitors from all over the world. It cost nearly a million pounds to build and it was decorated by a remarkable team of artists, which included a prince of the Royal House. The roof is composed of copper plates, each one of which is inscribed with the name of the citizen who paid for it, and the floor of one of the magnificent halls was made by the workmen, on their own initiative, out of odd pieces of marble left over from other building operations.

For all Skin Abrasions — Minard's Liniment.

A remarkable feature of the 1929 forest fire situation in Manitoba and Saskatchewan was that fires occurred and were fought in every month of the calendar year.

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.
